

THOUGHT FOR THE DAY
“Don’t let yesterday take up too much of today”

Dear Parents

FROM THE OFFICE

Man is a very adaptable being. Adaptation is not only from one day to the next and there is certainly a transition period to get used to change or a new way of life. Just as soon as we get used to something, such as masks, no sporting activities, etc., our adaptability is again put to the test.

Our parents and learners now have to re-adapt to the cricket and hockey activities that have started. It is wonderful to see our fields full of active learners again.

The cultural activities have also slowly started to resume, with Cultivaria in full swing.

We would also like to mention that the possibility of school tours for Grade 6 & 7 learners is being investigated, keeping in mind all the necessary protocols. We are hopeful that the Grade 5 learners will follow soon.

We wish you the very best with the everyday-adjustments that need to be made!
